**Mountain Iron Community Center- Mt. Iron, MN**

# **Effectively Living and Working Within a Diverse World**

North St. Louis County Habitat for Humanity and Habitat Minnesota are hosting the EFFECTIVELY LIVING AND WORKING WITHIN A DIVERSE WORLD training session led by **Jodi Pfarr**. This unique training will allow participants to become conscious of and better understand their personal experiences while also being open to the complexities of others experiences. Participants leave with a very practical understanding of how to work effectively with diverse populations– whether that diversity is economic, racial, gender, etc.– to help them better manage, supervise, or volunteer within their organization or communities.

Since 2011, Jodi Pfarr has been conducting impactful seminars leaving people learning and laughing. She brings audiences the knowledge she has gained from years of hands-on experience within the criminal justice system, social services, religious institutions and nonprofit organizations. This vast work experience enriches her presentation with stories from the trenches that audiences often find relatable and transferable into their own lives.

*“I’m passionate about creating sustainable communities where everyone’s voice is heard – a place where police are safe, social services are effective, schools are achieving and businesses are thriving.” - Jodi Pfarr*
